Dry Hopped Arlo - A Other Half Collab

\$64/24pk
16oz

Other Half Dry Hopped Arlo is the extra citrusy, piney cousin of Arlo. When it came time to collaborate with Other Half, we pulled out all the stops. We took our bone-dry cider (Arlo) with natural citrusy notes and doubled down by dry hopping with Motueka and Citra hops. The results are double citrus, double dry, and double delicious.

From Grass to Glass!

Whey alcohol is used as the base spirit to make a truly unique premium quality Irish gin. Milk from the Irish dairy farmers is separated into curds and whey, curds go on to make cheese and the whey goes into the gin!

Special yeasts are added to the whey to convert the milk sugars into alcohol, distilled by hand with 18 botanicals that have been locally foraged.

Ballyvolane House Spirits Company is the first artisan distillery to produce small batch milk gin from whey alcohol.

DIY Hand Sanitizer Recipe

Ingredients

- 2 ounce spray bottle
- 5 drops [vitamin E oil](#) (optional, this makes for soft hands!)
- 3 tablespoons witch hazel with aloe vera, vodka, or 190 proof grain alcohol, such as Graves
- 5 drops lemon essential oil
- 5 drops orange essential oil
- 5 drops tea tree essential oil
- Distilled (or at least filtered, boiled, and cooled) water

Instructions

1. In the spray bottle, combine the vitamin E oil, witch hazel, vodka or grain alcohol, and essential oils. Place the sprayer on tightly and shake well for 15-20 seconds to combine.
2. Open the bottle, and fill to the top with water. Replace sprayer, and shake again for 15-20 seconds. Done!
3. Print and stick the label to the bottle. If you don't have label sheets kicking around, you can also print the label onto regular paper, and then use clear packing tape to adhere the label to the bottle by using the tape like lamination over the entire label.
4. To apply: shake the jar vigorously to reincorporate the essential oils, then spray liberally on your hands whenever you feel like they need a bit of a deep clean. Rub hands together until dry. **This is not a substitute for proper hand-washing, so make sure to wash your hands well at the next opportunity.**

CORONAVIRUS DISCLAIMER: This hand sanitizer is not a substitute for [proper handwashing](#). And while this home remedy contains commonly-accepted natural antiviral ingredients, it has never been tested in a lab to determine it's efficacy against viruses such as the coronavirus.

Essential oil disclaimer: This recipe uses what are generally considered safe essential oils, but please keep in mind that while completely natural, all essential oils are powerful plant compounds that you and your family (including your pets) might have a reaction to. Never use essential oils undiluted or take essential oils internally (diluted or undiluted) without the guidance of a professional, and always read up about the possible side effects of each type of oil before you use it. Avoid the use of essential oils (diluted or undiluted) during the first trimester of pregnancy, on small babies, and on anyone with severe allergies to the plants the oils are derived from. And if you see any reactions in yourself, your family, or your pets, stop use of your essential oil products immediately and contact a medical professional.

Coronavirus Response

Our hearts go out to all those affected by the COVID-19 outbreak. Once the coronavirus emerged as a threat, we assembled an internal task force to monitor the developing crisis and manage our response accordingly. We have been closely following recommendations from the Centers for Disease Control and Prevention (CDC), Public Health Agency of Canada, and the World Health Organization (WHO), and we have implemented policies and precautionary measures to best support the safety and health of our associates, partners and their respective families.

We will continue to operate with your safety and well-being in mind and provide the highest quality of service. By working together, we will get through this challenge and emerge stronger as an industry.

As everyone in our industry continues to navigate the evolving COVID-19 situation, we want to re-emphasize our commitment to serving our customers in a safe and responsible way. We have implemented measures to safeguard our associates, as well as our customers, during this difficult period. We'd like to extend a sincere thank you to all our customers who are doing outstanding work in being advocates of social distancing while continuing to operate during coronavirus.

Bacchus Importers Delivery & Sales Protocol

Dear Valued Customer,

Now more than ever, Bacchus is committed to being a responsible and attentive business partner to you. In response to the evolving COVID-19 situation, we are enhancing our business protocols and taking additional precautions to maximize social distancing principles and further limit person-to-person contact for the safety of not only our drivers and helpers but your employees and customers as well. Specifically, we are implementing the following protocols effective immediately and until further notice:

- We are adopting a “drop & go” policy for all deliveries. Our drivers and helpers have been advised to deliver only to designated receiving areas and to limit interaction with receivers and other account personnel. Please note that this means our drivers and helpers will not be delivering product to basement areas or into store aisles.
- Accounts are asked to make the designated delivery area one that is not generally accessible to the public. We also ask that delivery doors be propped open for drivers to limit surface contact.
- If a Bacchus associate must obtain an executed invoice while visiting an account, he or she will follow the below process when doing so:
 - Bacchus representative places the customer's copy of the invoice where the customer representative/agent has easy, isolated access;
 - Bacchus representative leaves customer's copy of the invoice and allows the customer representative/agent to complete the paperwork with their own pen;
 - And, Bacchus associate then makes adjustment to the company's copy to reflect the customers and company adjustments to the invoice, then the customer signs the company's invoice. The customer can take a photo of the adjustments of the company's invoice for proof of adjustment.

Additionally, all Bacchus associates have been reminded to adhere to the social distancing and other preventative measures recommended by the health authorities, to including avoiding person-to-person contact when possible, frequently washing hands, covering coughs and sneezes with a tissue or inner elbow or sleeve, avoiding touching one's face and maintaining at least 6 feet of distance between the associate and others.

We recognize that continuing to visit accounts and meet our business partners' expectations remains essential, and we believe these protocols will enable us to continue to serve you at the highest levels while also promoting associate safety during this unprecedented and difficult period. We sincerely appreciate your support and commitment to safety and your cooperation in these efforts. We will continue to monitor the situation across all Breakthru markets, and we will provide updates to our protocols and guidelines as necessary.
