Acrobat Reader will take you to the first instance of the word you entered or finds all occurrences of the word and lists them in the Search window where you can then select one at a time and be taken to the page and location on the page where the word is found. To make your search more exact click the box next to "Whole words only".

If you want to find all occurrences of a Product Type, Grape Variety, Price Point, etc., type the word you what want to find after you've gone to Edit > Search or Edit > Advanced Search, then click Search. PRODUCT CATEGORY SEARCH

To search by Product Category go to the Categories Page by clicking on it at the top of the Bookmarks patette and then click on the category you wish to find. All pages with this category will list in the Search window where you can click on each category in the list one at a time and and be taken to the page and location on the page where the category is found. To go back to the Categories Page click on it in the Bookmarks palette.

Most often the search is very fast. If it is not, you may need to search up to 5 times before the search is nearly immediate. Once the search is up to speed it will stay that way as long as the PDF is on your computer.
